"Sometimes, my mind is a kaleidoscope. Somewhere, buried beneath a hundred different swirling colors, is the original image, but as you turn the dial, the original meshes with colors and becomes something completely different."

Description: Jady's world twirls out of control after her mother dies in a car accident and her forgetful Great-Aunt Nadine moves in. Her dad is never home and her best friend doesn't even know half of it. Jady is trying to keep it all together for her little brother, Trenton. But when Aunt Nadine disappears with Trenton in the middle of a snowstorm, Jady may be the only one who can find them. *Kaleidoscope Me* is an exciting novel about family, friendship and faith with a unique, non-linear style.
